CARLISLE

EXPLAINS.

Secretary of the Treasury Before the Committee on Banking and Currency.

ANSWERS ALL OBJECTIONS.

Compares the "Baltimore" Plan with His Own Suggestiens.

Indi

LIABILITY WITH THE BANKS.

Previsien to Satisfy Needs of the Pacific Coast

WASHINGTON, Dec. 10.-Secretary Carlisle appeared before the House Committee on Banking and Currency to-day to present in detail the features of the new currency plan proposed in his an-nual report and indorsed in the President's message. There was much interest in the hearing, as it was felt that Mr. Carlisle would lend a more popular interest to the subject than had appeared in the formal report.

The crowd in attendance made it

essary to use the large room of the Committee on Ways and Means. Besides the full membership of the Com-mittee present Senor Romero, the Mexican Minister, and many members of Congress were in attendance.

can Minister, and many members of Congress were in attendance.

Mr. Carlisle adopted an easy, conversational style of address. He said he was ready to answer questions from the Committee as well as to elaborate his own views. He took up each section of his recent recommendations.

"First, repeal all laws requiring or authorising the deposit of the United States bonds as security for circulation; and, second, permit National banks to issue notes to an amount not exceeding 75 per cent. of their paid-up and unimpaired capital, but require each bank before receiving notes to deposit a guarantee of United States legal-tender notes, including Treasury notes of 1830, to the amount of 30 per cent, upon the circulating notes applied for.

"This percentage of deposits upon the circulating notes outstanding to be maintained at all times, and whenever a bank retires its circulation, in whole or in part, its guarantee fund to be returned to it in proportion to the amount of notes received."

Mr. Carlisle said he was satisfied that the present law requiring the deposit of bonds to secure circulation prevented clasticity in the currency.

"The provision outlined," said Mr. Carlisle, "gives ample protection without the deposit of bonds as required by the present law."

Mr. Carlisle said the practical value of a reserve fund of currency was shown in 1891. There was a demand for money aggregating \$40,00,000. The Treasury did its best to meet the strin.

and the shou cuia

lower than the law contemplated. A recent investigation showed it was down to five or six millions, whereas it was presumably much larger for the purpose of protection. The proposed plan contemplates that the current redemption, as well as the final redemption, shall be met by the banks. The daily redemptions now run into the millions. That is not due to worn-out or worthless currency, but the New York banks find themselves overloaded. They send National bank notes to the New York Sub-Treasury, and have them redeemed in United States notes or other legal classes of currency. The Treasury then sends word to the National banks to redeem these notes that the sub-treasuries have taken in. It sometimes takes the

National banks two or three months to take up their notes.

"It results," said the Secretary, "in keeping a very large sum suspended in the air. We have paid it out, and will eventually get it back, but in the mean time this large sum is held up."

Mr. Carlisle said the proposed plan would exactly reverse this system.

Mr. Johnson asked if the untimate liability of the Government would not inspire more confidence in the currency, "Undoubtedly," said the Secretary, "if the United States Government stands behind a National bank note it inspires absolute confidence. But my idea is that the proposed plan will insure ample protection, and therefore ample confidence."

Mr. Walker, of Massachusetts, put the

MARY ANDERSON'S SON DEAD. REPORT ON BROCKWAY

the Day of His Birth.

Shadew of Her Old Self.

LONDON, Dec. 10 .- Mrs. Mary Anderon-Navarro, the well-known American actress, was delivered of a son on Friday ast at her residence in Lexham Garlens. Kensington, this city. The child died the same day.

Mary Anderson was born on July 28, 1859, at Sacramento, Cal., and in very early girlhood she gave evidence of strong histrionic impulses. She did not begin at the beginning, but went to Mr. McCauley, of Louisville, and asked for a trial as Juliet. in "Romeo and Juliet." She made her debut in that role, and it was said that her extraordinary beauty and grace, more than satisfied her audiences. She became successful almost from the start.

She has been, more than any other actress, persecuted by cranks who fancied they were in love with her, and wanted to marry her. She was married in London on June 17, 1899, to Mr. Antonio Navarro, in the Roman Catholic Chapel of St. Mary's, in Hempstead. The couple took up their home at 17 Ferndale Park, Funbridge Wells, England, and less than a year later it was reported a child had been born to them. The rumor was found to be untrue, and it was said that Mrs. Navarro was a ghost of her former self.

Of late she has been at work writing her memolirs.

KNEEBS RELEASED ON BAIL.

Him to Come Home Under Bond. BERLIN, Dec. 10.-Robert F. Kneebs, man turf, has been admitted to bail in the amount of 10,000 marks, and sails for the United States, from Liverpool, this

Kneebs was a rested by the German authorities for trotting a mare under the name of "Nellie Kneebs" at the Berlin track. The mare is supposed to be Bethel, with a record of 2.16½, and the offense of "ringing" is made amenable under the laws of Germany to a term of imprisonment. of imprisonment.
Every effort to find the mare Bethel at the Kneebs farm or elsewhere has been fruitless. A mare resembling the trotter has been found with scars upon her shoulder, believed to have been purposely inflicted to imitate scars borne by the real Bethel, which resulted from a collision with a barbed-wire fence.

GERMANY AFTER STANDARD.

Inferior Oil Into That Country. BERLIN, Dec. 10.-The Government has instructed the Hamburg Chamber of Commerce to inquire into the complaints which have been made as to the inferior quality of recent importations of petroleum by the Standard Oil Company. It is charged that the Pennsylvania oil fields are exhausted and that the oil re-cently imported came from Indiana and Ohio.

circulating notes outstanding to be maintained at all times, and whenever a bank retires its circulation, in whole or in part, its guarantee fund to be read to fine the received.

Mr. Carisele said he was satisfied that the present law requiring the deposit of bonds to secure circulation prevented by the control of the secure of the control of the secure of the control of the company of the packages of the control of the company. The company of the packages of notes were returned unopened. The proposed is deposit of 50 per cent. Under from the Baltimore plan.

LIGHTS IN CENTRAL PARK. Fitch Thinks It Unnecessary -- Spe

cial Meeting Called. The Gas Commission to-day awards ontracts for lighting streets and other places during the year 1895 at the same

places during the year 1896 at the same figure as for 1894.

There was some discussion as to whether or not it is advisable to light Central Park But a small portion of the Park is now lighted, and there are no gas mains or subways in which to carry electric wires. The New York and New Jersey Globe Gaslight Company put in a bid to supply 200 naphtha lamps for the Park at 122 a year for each tamp. Compitoller Pitch expressed a doubt as to there being any real need for the lamps, and it was decided to have a special meeting to consider the question next Friday morning.

The city will pay for 2.62 electric street imps in 1895. The total amount paid by the city for street lighting is about 195,00 a year.

This Woman Got Shaved.
